

# **WALTER STUDIOS**

**747 W. Roosevelt St. Phoenix, AZ 85007**

**Welcome to Walter Studios.**

**This space has always been about connection—through art, through music, through moments that matter. Originally home to Canyon Records, who made history in 1951 by signing the first Native American artist, Ed Lee Natay, to a record label, the building carries a deep legacy of culture and creativity.**

**Today, Walter Productions carries that torch forward. We've shaped this space into a home for artists, performers, and people with big ideas. It's not just a venue – it's a place where energy builds, people connect, and something real happens.**

**If you're looking for a space with character, history, and a team that genuinely cares about what you're creating—we'd love to work with you.**

## ARTIST & TOUR PARKING

### Power & Water Connections

**Power:** 50A (14-50R) & 30A (TT-30R) available  
**Water:** Potable water is available from spigot attached to the building. Hose available on site.

*As a convenience to our artists, tour coaches may dump their black/grey water tanks on property, if desired.*

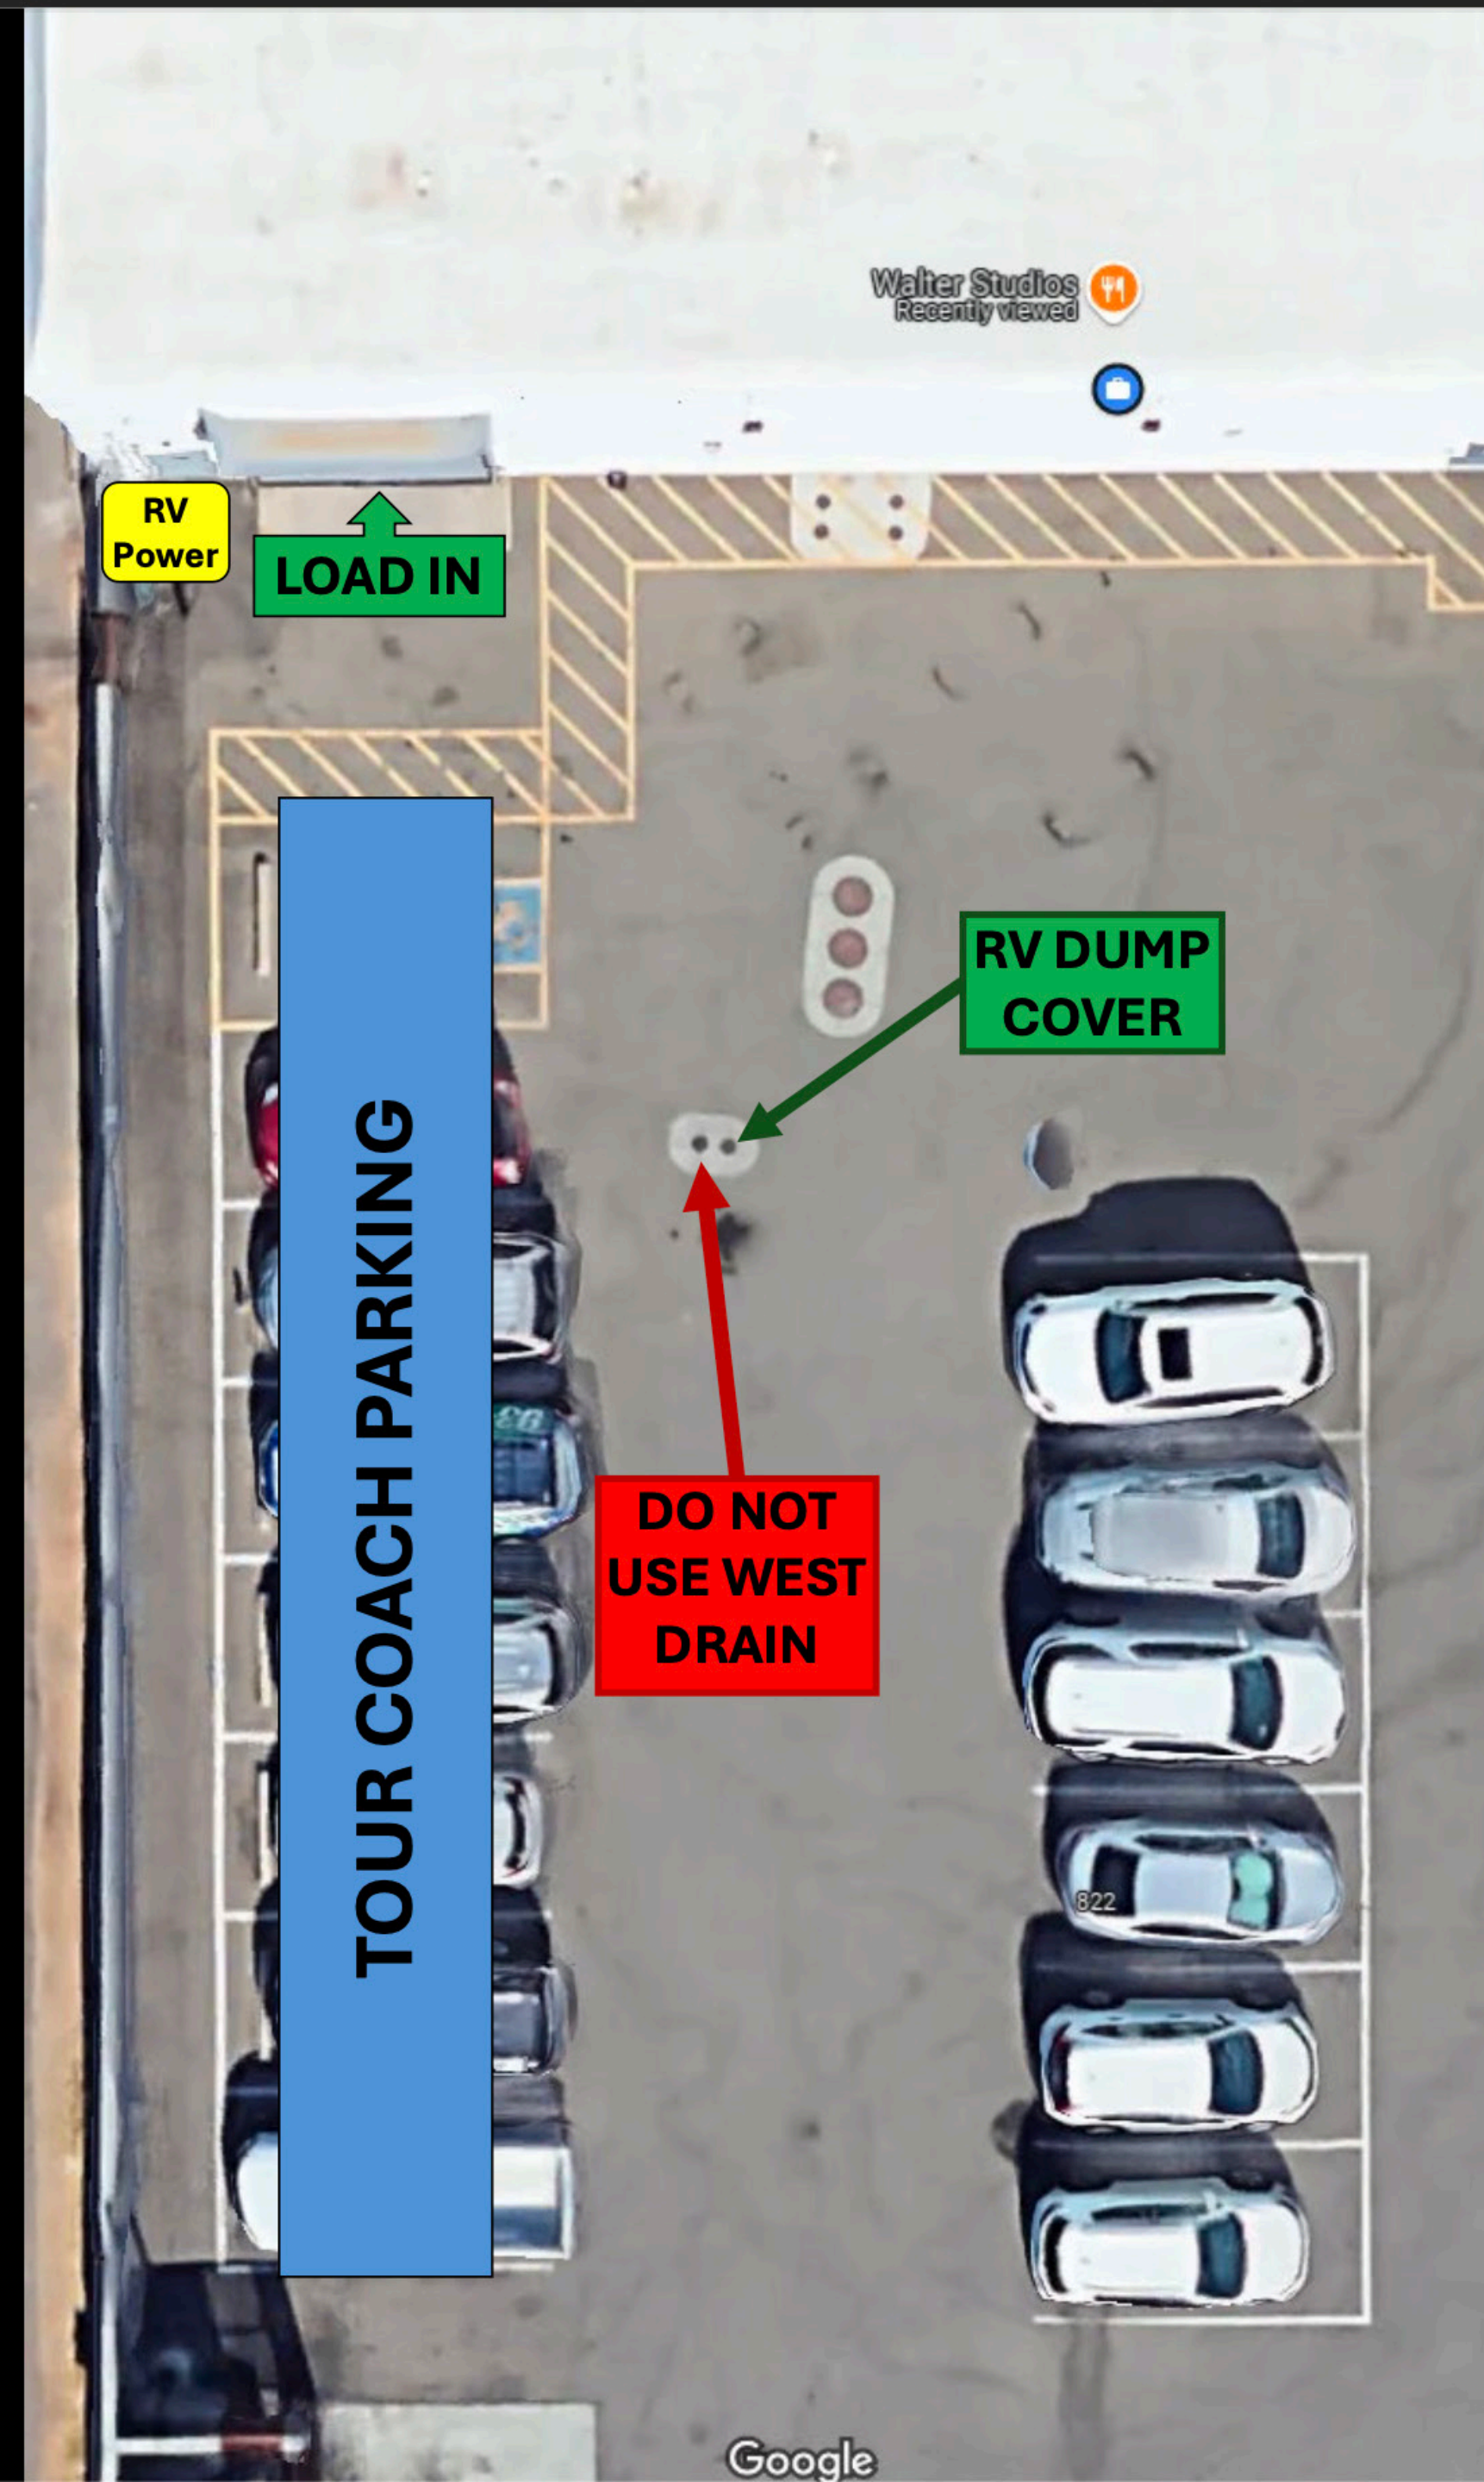

### Tank Dumping Instructions

**Must Use East Drain.**

**Do Not Dump Into West Drain.**

1. Remove metal cover
2. Connect hose to coach & dump into exposed drainpipe.
3. Replace cover.
4. Stow hose and clean up any spills.

*Not designed for continuous connection.*
